Summary

Entry level Full Stack Developer with a strong foundation in front-end development, including responsive UI design and user interaction, combined with back-end logic, API integration, and data handling. Eager to contribute to high performance, user centric web applications in a dynamic and growth-oriented development environment.

Experience

Full Stack Web Development Intern

January/2024 - April/2025

CodTech IT Solutions PVT. LTD.

- Technologies used: HTML, CSS, JavaScript, API, Node.js, WebSocket, MongoDB
- Developed a responsive weather application integrated with a public API for dynamic data display.
- Built a real-time chat application using WebSocket with complete frontend-backend integration.
- Created a collaborative document editor using React.js and Django for real-time multi-user editing.
- Developed a Chrome extension for time tracking and productivity analytics with backend storage.

Data Management & Office Administrator

February/2022 - March/2024

Bharat Engineering Work

- Monitored and maintained computer systems, servers, and networks to ensure 99% uptime.
- Troubleshoot hardware, software, and network connectivity issues, resolving incidents efficiently.
- Managed IT inventory, including hardware, software licenses, and peripherals, with accurate documentation.
- Conducted regular system updates, data backups, and verification to ensure data security and reliability.
- Streamlined office workflows, improving administrative efficiency by 15%.

Technical Skills

- Programming Languages:** HTML, CSS, JavaScript, TypeScript, Python, PHP, SQL
- Front-End:** React.JS, Next.JS, Tailwind CSS, Bootstrap
- Back-End:** Node.JS, Express.JS, Django
- Databases:** MongoDB, MySQL, SQLite

Education

Bachelor of Computer Applications

June/2021 - April/2024

M.J. College, CGPA: 7.35/10.0

- Relevant Coursework:** Programming in Python, Data Structures, Dot Net Technology

Projects

Yummigo - Food Ordering App (MERN Stack Developer)

GitHub: [Link](#) | Live Demo: [Link](#)

- Technologies used: MongoDB, Express.js, React.js, Node.js, Stripe, Tailwind CSS
- Developed a responsive food ordering platform with restaurant browsing, menu exploration, and cart functionality
- Implemented search, filter, and checkout features with dynamic routing
- Integrated backend for order handling and admin-side scalability.

AI Powered Blog Generation Platform (MERN Stack Developer)

GitHub: [Link](#) | Live Demo: [Link](#)

- Technologies used: MongoDB, Express.js, React.js, Node.js, Stripe, Razorpay, Tailwind CSS
- AI-based blogging platform that generates high-quality blog posts from user-provided topics using Gemini API.
- Integrated Markdown editor for rich text formatting and provided easy export options for users.
- Displayed featured and trending tech blogs using the API for curated reading.

Online Banking System (Full Stack Developer - Django)

GitHub: [Link](#) | Live Demo: [Link](#)

- Technologies used: Django (Python), HTML, SQLite
- A secure digital banking system with Django, enabling user registration, login, balance checks, and money transfers.
- Implemented transaction management and history filtering with success/error alerts for enhanced user experience.
- Developed a role-based dashboard for users and admins to manage accounts and monitor activities.

Certifications

Accenture Nordics Software Engineering - Forage

July/2025 | [Certificate Link](#)

- Developed skills in Agile Methodologies, SSDLC and Debugging Code.
- Gained experience with Software Maturity Assessments and Code Analysis.

HackerRank Software Engineer Intern Simulation - HackerRank

June/2025 | [Certificate Link](#)

- Passed HackerRank test for Software Engineer Intern role.
- Proven skills in Problem Solving and SQL.

Deloitte Australia Technology Job Simulation - Forage

June/2025 | [Certificate Link](#)

- Applied Python Programming and Data Structure concepts in simulated tasks.
- Strengthened skills in Planning, Formal Communication and Software Development Processes.

Master Course in Full Stack Development - Great Learning Academy

April/2024 | [Certificate Link](#)

- Completed Master Course in Full Stack Development.
- Gained skills in Front-End, Back-End, Databases and Full Stack Project Development.

Achievements & Awards

- Recognized by the National Intellectual Property Awareness Mission (NIPAM)

August/2023
